

**Dec 11, 2014**

The Voice Library, Military Story Project has provided the homeless Veterans that I work with the opportunity to record and share their stories of how life was before coming to Veterans Inc. and then how the Veterans Inc. experience has had a positive impact on their lives.

As a Homeless Veterans Case Manager for Veterans Inc: I have the privilege to help homeless Veterans get back on their feet and become self-sufficient. The Voice Library Military Store Project has been very helpful to these homeless Veterans by letting them tell their stories in their own words and then sharing their stories in a secure way with their families, friends and military buddies.

It has indeed been heartwarming to watch a Veteran recall stories from his military service. How the sight, sounds and smells of those places many of them far away, bring a smile or a tear to the Veterans face.

Voice Libraries Military Story Project really is a very unique way to honor all Veterans by providing them and their families with an opportunity to save the most precious aspects of who they are their memories of having served their country and allowing those memories to be preserved for the enjoyment of generations to come.

My Dad a proud United States Marine past away this year. Before he passed, I took the time to have him record his life story and I am so glad that I did. You too can take advantage of this wonderful opportunity simply by saying yes to the unique and wonderful opportunity that the Voice Library Military Story Project simply offers...the chance to save those special memories and stories of a life time.
